AN OVER VIEW

Limra project consultants, working with a vision of "Healthcare for masses" is an umbrella firm of limra design solutions, which was established in 2010. The Limra project consultants (LPC) has been one of the leading project consultants in the field of health care architecture. LPC has a vast experience in setting -up, designing and construction of clinics, polyclinics, residence cum clinic, nursing homes, hospitals, specialty hospital, multi super specialty hospitals, medicity and mega hospitals of up to 2000 beds. LPC has specialty of hospital expansion, hospital adaptive reuse, departmental expansion and setting of latest facilities into existing hospital setup. LPC is platform of experienced and reputed consultants under one roof and is supported by a dedicated research wing of Healthcare Architecture

LPC has also expertise of setting up of educational institutions associated with hospitals like medical college, dental college, nursing college, physiotherapy college, pharmacy college, AYUSH Colleges and Para-medical colleges. The LPC's major work areas may be categories as below.

1. Preparation of vision, mission and policy document with DPR
2. Documentation for NOC, LOI, LOP for new hospitals
3. Planning and designing of hospitals
4. PMC for construction of new facility
5. Accreditation of hospitals
6. Green hospital approval
7. Hospital equipment planning
8. Hospital HR planning
9. Re- furnishing, Re branding, Adaptive re use
10. Hospital interiors under healing architecture
